## ABOUT ME

I graduated from Dian Nuswantoro University majoring in Informatics Engineering. I am a highly motivated data enthusiast. My love for data started during my final year of college, where I did my final project on data. I am excited to bring my technical and analytical skills to the field of data analyst. With my background and experience, I believe I can make a meaningful contribution to the company and grow with the company.

---

## EDUCATION

### Dian Nuswantoro University (2019 – 2023)

*Bachelor of Computer – GPA 3,81*

- Understand the Basics of Programming, Basic Website Programming, Databases and Machine Learning.
